INTRODUCTION

Super Play Action Football™ is an action-packed football game that is really three games in one. Match your high school team against a bitter rival from across town in the High School game, guide your favorite College team on a quest for the national championship, or take an NFL team through a 16 game season on the road to the Super Bowl! It's all up to you!

HIGH SCHOOL FOOTBALL RULES

You don't have to know a lot about football to play the Super Play Action Football High School game. Here are some of the basic rules to keep in mind.

SCORING

Teams score 6 points for a TOUCHDOWN, 3 points for a FIELD GOAL, 2 points for a SAFETY, 1 point for a kicking POINT AFTER TOUCHDOWN (or EXTRA POINT), and 2 points for a running or passing POINT AFTER TOUCHDOWN (or 2-POINT CONVERSION).

KICKOFF

A football field is 100 yards in length. In Super Play Action's High School game, teams kick off from the 40 yard line.

DOWNS

Each team has 4 downs (or plays) to gain 10 yards. As soon as the team gains 10 or more yards on a play, the down is reset so that they again have 4 downs to gain 10 yards. If the player fails to gain the ten yards, the ball is turned over to the other team.

LENGTH OF GAME

The High School game consists of 4 quarters that are each 12 minutes long. The game clock stops whenever a player runs out of bounds or when an incomplete pass is thrown. After the first two quarters the teams are allowed to rest for halftime.

BEGINNER MODE

Use the beginner mode to learn how to run the plays. The Quarterback will perform handoffs and laterals automatically after the ball has been snapped.

THE RADAR SCREEN

Since the play screen in Super Play Action Football only lets you see about 15 yards of the field at a time, you can use the Radar screen to follow the action on the parts of the field you can't see.

CHANGING THE SIZE OF THE RADAR

LARGE SCREEN

Use this size to get a good view of your receivers down field, and when kicking field goals.

NORMAL SIZE

This should be large enough for most plays.

SMALL SIZE

Use this size radar when you need to see the entire play screen clearly.

PLAY CONTROL

QUARTERBACK

THE CONTROL PAD

Passes can be thrown to one of three zones. If you want to pass to the left or right zones, hold the control pad down in that direction, and then press the B Button. To pass to the middle, press the B Button without pressing the control pad.

THE A BUTTON

The A Button snaps the ball to start the play. After the play is started, the A Button helps your quarterback scramble away from the pass rush.

THE B BUTTON

The B Button (along with the Control Pad) is used to pass the ball. You can also use the B Button to call out a cadence and draw the defense offside.

BALL CARRIERS

THE CONTROL PAD

Use the control pad to maneuver the ball carrier.

RUNNING BACKS

THE A BUTTON

Use the A Button to Sprint when you need an extra burst of speed to get by the defense. This will cause your players to tire more quickly, but can make the difference when you need a big play.

THE B BUTTON

Pressing the B Button will let you dive for extra yardage.

RECEIVERS

THE A BUTTON

Press the A Button while maneuvering into position to catch a pass, and you will be able to beat the defender to the ball.

THE START BUTTON

Pressing the START Button will pause the game and display the TODAY'S GAME screen.

DEFENSE

THE CONTROL PAD

Use the control pad to maneuver your defensive player.

THE L & R BUTTONS

Press the Left or Right Button to take control of the player you wish to control before the snap. After the play has started, this will give you control of the closest player to the ball.

THE A BUTTON

Pressing the A Button will allow you to Sprint to catch up with the ball carrier, and to Power Tackle when you catch him.

THE B BUTTON

Press the B Button to dive for the ball carrier.

THE START BUTTON

Press the START Button while on defense to pause the game and view the TODAY'S GAME screen.

THE KICKING GAME

LOFT POWER DIRECTION

A strong kicking game is the sign of a championship team, so don't neglect this part of your game. First, press the A Button to stop the directional arrow and snap the ball. Press the A Button again to stop the sliding power meter and determine the strength of your kick. Finally, press the A Button a third time to determine what part of the ball the kicker will hit. Hitting high on the ball will give you added distance, but increase the likelihood of it being blocked, while hitting low on the ball will reduce the chance of a block, but cut down on distance.

PENALTIES

Teams that have a lot of penalties called on them have a hard time winning. Besides, there is nothing more disheartening than completing a big play and having it called back because of a penalty.

OFFSIDES

Called if a player is on the wrong side of the line of scrimmage when the ball is snapped.

UNNECESSARY ROUGHNESS

This is a Personal Foul called if one of the players is a little overzealous on a play and intentionally tries to hurt another player.

ROUGHING THE PASSER

This is another Personal Foul called if the defense tackles the quarterback after the ball has been passed.

ILLEGAL PROCEDURE

Called if the offensive team fails to wait until all of his players are set before snapping the ball (except receivers in motion).

DELAY OF GAME

Don't let the 30 second play clock expire before you can get your play off.

HOLDING

Called if the offensive linemen grab the defensive linemen while blocking.

THE COLLEGE GAME

There are some rule changes to be aware of in the College game, as well as many new features and some exciting play control options.

LENGTH OF GAME

At the College level, the length of each quarter is increased to 15 minutes each, meaning that the overall game time has increased from 48 to 60 minutes.

KICKOFF

As College kickers have stronger legs than High School kickers, the kickoff location has been moved back to the 35 yard line.

ADVANCING FUMBLES

Unlike in the High School game, players may not pick up fumbles and run with them. As soon as a player takes possession of a fumble, play is stopped.

EXPANDED PLAY BOOK

While High School teams have very simple play books, College teams have 24 offensive plays and 12 defensive plays each. Many of the plays are more complex than those used at the High School level.

BEGINNER MODE

In the College league beginner mode the Quarterback will perform handoffs and laterals automatically after the ball has been snapped. Also the receivers will attempt to automatically catch a pass if it is thrown into their zone. This is a training mode and is only available for single games.

PLAY CONTROL

Get ready for some serious college football! Now that you have mastered the High School game you're ready for these new play control options.

THE CONTROL PAD

The control pad is used to maneuver your player and (along with the B and Y Buttons) to determine whether a pass is thrown to the right, left, or middle parts of the field.

THE START BUTTON

Press the START Button to pause the game and view the TODAY'S GAME screen.

THE L & R BUTTONS

Use the Left and Right Buttons to change pages in the playbook and to change players on defense.

THE A BUTTON

Press the A Button to Snap the ball, Sprint, or Power Tackle.

THE B BUTTON

The B Button is now used to pass to the short zones only.

THE X BUTTON

Use the X Button to Stiff Arm tacklers when running or to Super Tackle on defense.

THE Y BUTTON

Use the Y Button to pass to long zones. It is also used by receivers to Jump and by ball carriers to Super Dive.

COLLEGE SCHEDULING

In the College game, you get to choose your opponents for each of the 11 weeks of the college season. The tougher your schedule, the better chance you'll have at being rated highly in the Top 20.

St of Fla.	Moldy Moss	Iowa	Miami, Fla
St of ND	Alabama	Michigan	Navy
St of Penn	Auburn, Ala.	Minnesota	ND

SAMPLE SEASON SCHEDULE

Choose your opponents carefully. Playing the best teams in the country week after week will give you a chance to be highly rated, while scheduling weak teams will result in a lot of wins, but not much respect from the press. Here's an example of a schedule loaded with cupcakes!

Week 1 Tremble
Week 2 Vermont
Week 3 Wlmsbrgh, VA
Week 4 Yngstown, OH

THE TOP 20 RANKINGS

PRESEASON RANKINGS

- | | | | |
|---------------|-----------------|----------------|--------------|
| 1. ND | 6. St of Ohio | 11. Florida | 16. L.A., CA |
| 2. Nebraska | 7. South Cal | 12. Washington | 17. Georgia |
| 3. Miami, Fla | 8. St of Penn | 13. St of Mich | 18. Colorado |
| 4. Oklahoma | 9. Michigan | 14. Tennessee | 19. Standard |
| 5. St of Fla. | 10. Salt Lk, UT | 15. Alabama | 20. Arizona |

ADVANCING IN THE RANKINGS

Your initial rating in the Top 20 will depend on the reputation of your school, as well as the strength of your schedule. As you progress through your season, you will move up or down in the polls depending on the results of your games. Remember, there are almost 100 teams in Super Play Action Football, so it is possible that your team won't be in the Top 20 at all.

THE SECRET OF THE RANKINGS

There is more to attaining a high national ranking than just winning games. Here are some tips on how to stay high in the rankings and have a shot at the National Championship:

REPUTATION: Use a school with a good football tradition to begin with. Reputation has a lot to do with the rankings.

STRENGTH OF SCHEDULE: Schedule quality opponents and your program will gain credibility.

LUCK: Sometimes even the best teams get lucky.

BOWL GAMES

The history and tradition of the college Bowl games is part of what makes college football so exciting. Every top football program measures their success on the Bowl games they attend.

Violet Bowl	Oahu Bowl
Banana Bowl	Franklin Bowl
Salt Bowl	Patriot Bowl
Wool Bowl	Independent Bowl
Siesta Bowl	Smash Bowl
Alligator Bowl	Justice Bowl
Pear Bowl	Fame Bowl
Lemon Bowl	USA Bowl
Vacation Bowl	

GETTING INVITED TO A BOWL GAME

At the end of the season, you may be invited to one or more Bowl games. The first Bowl you're invited to will usually be the most prestigious Bowl game available. If this invitation is declined, you might receive another invitation. If there are no other invitations, you'll be given a chance to reconsider attending.

CHOOSING A BOWL

Choose carefully! The prestige of the Bowl you attend and your opponent for the game will greatly effect your final Top 20 ranking. The list of Bowl games above is in general order of prestige, but the prestige of Bowl games changes each year depending on the participants.

THE NATIONAL CHAMPIONSHIP

The top-rated team in the final Top 20 will be crowned National Champs! The National Champion is determined after all the Bowl games have been played.

THE FINAL RANKINGS

- | | |
|----------------|------------------|
| 1. Washington | 11. Illinois |
| 2. Florida | 12. Michigan |
| 3. ND | 13. Boston, MA |
| 4. Tennessee | 14. S. Carolina |
| 5. Colorado | 15. Nebraska |
| 6. St of Fla. | 16. South Cal |
| 7. Georgia | 17. Arkansas |
| 8. Air Force | 18. St of Penn. |
| 9. Salt Lk, UT | 19. L.A., CA |
| 10. St of Ohio | 20. St of Oregon |

If you won your Bowl game, expect to move up in the final polls. All the teams in the Top 20 have a greater chance of losing in a Bowl game than in the regular season. Remember, it takes more than just a great season to finish #1.

KEEP AN EYE ON THE WEATHER

WIND

High winds will effect your kicking game, and a weak-armed quarterback can use the wind at his back.

TEMPERATURE

The temperature is controlled in dome stadiums, but in outdoor games the heat or cold can affect the outcome of a game.

FIELD CONDITIONS

Snow, rain, and whether the field is natural grass or artificial turf will make a difference on game day.

STADIUMS

Each team has its own stadium which can be viewed on the TODAY'S GAME screen. Home field advantage is an important part of Super Play Action Football, and teams will play better in their home stadium.

NFL RULES

BEGINNER MODE

In the NFL league beginner mode the Quarterback will perform handoffs and laterals automatically after the ball has been snapped. Also the receivers will attempt to automatically catch a pass if it is thrown into their zone. This is a training mode and is only available for single games.

EXPANDED PLAY BOOK

In the NFL game, each team has 32 offensive plays and 16 defensive plays in their play book, with some new, very complex plays like the Flea Flicker.

ADVANCING FUMBLES

The NFL game is similar to the High School game in that players are allowed to advance fumbles. This is not allowed in the College game.

SIDELINE CATCHES

In the High School and College games, receivers must keep one foot in bounds when catching balls on the sidelines or at the back of the endzone for the catch to be considered legal. In the NFL, both feet must be in bounds for the catch to count.

POINT AFTER TOUCHDOWN

In the NFL game, teams must kick for a POINT AFTER TOUCHDOWN, and are not allowed to try for the 2-point conversion.

DOWN BY CONTACT

In the College and High School games, running backs are considered to be down when their knee touches the ground. In the NFL game, a player can get up from the ground and continue running unless they are touched by a defensive player while on the ground.

PLAY CONTROL

Now that you've conquered the College level, try out some of the new play control features in the NFL game.

THE CONTROL PAD

The control pad is used to maneuver your player, and (along with the B and Y Buttons) to determine whether a pass is thrown to the right, left, or middle parts of the field.

THE START BUTTON

Press the START Button to pause the game and view the TODAY'S GAME screen.

THE L & R BUTTONS

You can now use the Left and Right Buttons to call an Audible play before the snap and to Spin the ball carrier past tacklers.

THE A BUTTON

Press the A Button to Snap the ball, Sprint, or Power Tackle.

THE B BUTTON

The B Button is used to pass to the short zones and to dive for extra yardage.

THE X BUTTON

Use the X Button to Stiff Arm tacklers when running or to Super Tackle on defense.

THE Y BUTTON

Use the Y Button to pass to long zones. It is also used by receivers to Jump and by ball carriers to Super Dive.

PLAY CALLING

The plays in the play book can be viewed more closely by highlighting the play you wish to view and pressing the SELECT Button.

There are two ways you can call a play in Super Play Action Football. The first way is to use the Control Pad to highlight the play you wish to call and then press the START Button. The second way is to hold down the Button (A, B, X, or Y) that is listed above the play in the playbook before you press the control pad in the direction that is indicated to the left of the desired play. This second method should be used when playing against a human opponent to keep your play a secret.

AUDIBLES

If the defense looks like it will stop your original play, call out an audible.

Before the game begins, you will be given the chance to designate two plays as audibles. Select a play on the left page of the play book using the button combination method explained above. This play will be your L audible. Do the same on the right page to set your R audible. If you don't like the way the defense is lining up, you can call these plays at the line of scrimmage before the snap using the Left or Right button. Your team will then run your audible play instead of the play you originally called on the play book screen.

GAME STRATEGY

There is more to winning championships than just having the strongest team. A good coach can win a game for his team just as easily as a star quarterback or a lightning-fast running back.

INJURIES AND SUBSTITUTIONS

The secret to good coaching is knowing when to substitute for tired players. Watch your key player's energy levels on the Substitution screen. Tired players will not perform as well as rested ones and have a greater chance of being injured. Once a player is injured, they might be out for the remainder of that game.

USING THE CLOCK

When you are ahead late in the game, you'll want to use as much time on every possession as possible. If you're behind on the scoreboard, you should plan a few plays ahead of time to avoid wasting precious seconds on the playbook screen.

PLAY-CALLING

A team that passes on every down is easy to stop, even if they have the best quarterback in the league. Mix up your plays to keep the defense guessing, and you'll have a better chance for success when you do decide to throw deep.

KICKOFF STRATEGY

NORMAL KICKOFF

The safe bet is to kick the ball as deep as possible and make your opponent earn good field position.

ONSIDES KICK

An onside kick can swing the momentum of a close game to your side if successful. However, converting an onside kick is very difficult to do on a regular basis.

PLAYER STATISTICS

In the NFL game, you can keep track of your player's individual statistics throughout the year, and at the end of a season you'll see how your players stack up against the rest of the league.
